Beautiful Ballot Box Presented a Restorday's Sension

The New Hampshire society of the Colonial Dames met in special s saion at the Manchester house in Manchester yesterday, for the purpose of electing delegates and alterentes to the bieneral te sion which will be held in Washing as in April. The meeting was called to order at 11 o'clock.

Mrs Freeman Woodbury of Manche ter, president of the society occurried the chair, and the others present at the m eting were Mrs David Cross, Mrs Person C Point. Cheney and Mrs Jesish Carpenter of Manchester, Mrs J B Walker of Concord. Palmer of Lowell, Mass, Mrs Emil Rich- paries.

One of the most interesting features of being do omed. the meeting was the pres mation to the society by Mrs. C gswell, in behalf of Mrs Em l Richt r of Portsmouth, of a very beau iful and elaborate batlot bex-This box was made of pieces of wood from the fam as frigate, Constitution; from the Kearsarge; from a per immon tree which grew at the grave of Washington; from a tree on the mistoric Champignon form near Gettysbu g The handle was fastened with a copper bolt from the Constitution. The beautiful gift was re-

ceived with every mark of appreci tion. The special business of yesterday's sesi n was the choice of delegates to the to omal council as follows: Mrs. David tle Boar's Head and Mrs. Josiah G. Bel low of Walpole.

The alternates ch sen were Mrs. Arthur Yates of Portsmouth, Mrs. George Frost of Dorham, Miss Elizabeth White of Little Boar's Head and Mrs. Robeson

Barnabec and the Soprane

Henry Clay Barnabee, the genial come dian of the Bestonia's, bad a recent experionce that makes him chary of receiving letters of introduction At the end of his season last summer he spent some weeks in the country and made an appointment to go to the city later on and hear the voices of some aspirants for the stage. In the meantime he decided to pend the rest of his vacation at the seahore, and commissioned his manager, Frank L. Perlev, to buy him a cutboat Later on a letter from Mr. Perley called his attension to the fact that he was due in the city to hear various voices. Arciving in N. w York, he repaired to his hotel and telephoned Mr. Perley of his prese ce in the city. As he was about to take an afternoon sesta an attractive y ung girl called and hand d nim a let. er. It is said that after Barnabee perused the missive h stared at the girl in a bewildered way and then collapsed. The eartest to prepare for the opering of the letter read as follows:

"Dear Barney-I think I have found what you want; name Susie J., an', with it he discurring and sail for Newport some slight alterations in her righting, and | News. a new coat of pairt, the ought to answer could then judge her qualities better. F. L. Perl y."

It is designed to give vessels of the Caracas and Soneca type a and from six to eight rapid-fire machine guns. Those of the Vigitancia class are designed to have a main battery of six five-inch and four four-inch guns, four one-peutders and three machine guns. The batteries of the auxiliary ruisers on the Pacific coast, if those should be called into use, are substantially similar, six-inch guns being the largest ones designed for use in that

The navy department finds itself by comparatively good condition as to the supply of automobile torpedoes, which constitute one of the most deadly engine of naval destruction. The Whitehead tornedo is now in general use, although a few of the Howell class are still on hand. Fifty Whitehead torpedoes were secured a short time ago, and with these there is a total of about 350 on hand This gives not only a full outfit for vessels now in commission, but also the necessary reserve supply.

WORK OF WRECKING SLOW.

Havana, March II .- Captain Sampson who has been exposed to the sun while on the wreck lately, was somewhat indisposed yesterday, but the doctor on the Montgomery says he has no apprehention of a serious illness. The Spanish divers arou, the noonday heat, working in the morning and the evening.

The work of wrecking appears very glow. If any real progress is made it is scarcely apparent from day to day. Still. it is hoped that when the upper debris has been removed to the barge more bodies will be recovered. It may be how or, that the last body retaining a shape recognizable as human has been removed from the Maine.

The others and men of the Montgomety are still refused shore leave They devote much time to drill and setting ap exercises, the latter exciting much interest especially to the sailors on the Spanish ships, where the tacties are quite different

In a letter to the United States consulgeneral, Dr. Congosto, the secretary general of Cuba, assures General Lee that there will be no delay in the future in the passage of relief supplies through the custom house. On account of the discovery of lewelry in such supplies, the authorities held up many consignments, and perishable provisions were spoiled. Louis Klopsch, proprietor of the Christian Herald of New York, and one of the three commissioners appointed by Presitent McKinley to supervise the collection of a fund for the relief of the reconcentrados, has explained that so far as he knows there was no intention to smuggle. He believes the jewelry was sent from interior parts of the United States as presents, and the quality and quantity discovered seem to prove this assumption to be correct.

The naval court of Inquiry is quietly continuing its work and its members are as secretive as usual. So far as can be judged, there have been no importan developments recently.

Next Thu sday there will be an induential gathering at the values unde the chairmanship of General Blanco to promote the purchase of a waiship, to be called the Island of Cuba.

FRELING IN MADRID.

Madrid, March 11. - Political and financial circles here now fully realize that Spain is facing a grave problem In view of the attitude of the United States, it is understood the Spanish government has completely changed its policy towards Cuba, and is now courting the co-operation of the Cuban constitutional party, urging the maintenance of campaign against the insurgents, thus given the m heary policy predominance over diplomacy. This change is due to the fear that, if the radical autonomists insisted upon the disarmament of the volunteers or incited the constitutionalists to disaffection, a conflict would supervene, 'aftording the United States an opportunity for armed interven-

The presence in Madrid of the Spanish ambassador to France, Leon Castillo, has started rumous to the effect that Mr. Gullon, the Spanish numster for foreign affairs, is about to resign and that he will be replaced by Castillo, but this is demed in official circles, where it is stated the visit of Mr. Castillo is connected with the government's negotiations to obtain the support of France parties, including the Carlists and Republicans, as there is a keneral feeling that in the event of war the racial and commercial interests of Great Britain will impel her to side with the United States. It is understood that the first effect of the understanding with France will be that Spain will receive financial assistance in order to avert her na-

tional bankruptey. AMERICANS IN CUBA WATCHED.

Key West, March 11 .- The Fern arrived Thursday with the Maine's silver ware and 60 rifles recovered from the wreck. Mr. Bissell, stenographer of the court of inquiry, was also on board Both the official stenographers have no: left the court, and it has only a tempor-21y clerk. This leads many here to think that its work is practically done. and that it will return to Key West this week. The Fern coaled and the provisions for the starving Cubans were then put on board.

Since the days when northern soldiers built a road and fort here and then waited patiently for the engagement which never came, the people of Key West have had no opportunity to realize how essential their Island is to the commencement or continued existence of war. The martial conditions which now prevail would excite many a larger city into a state of ferment.

"Every American in Cuba now is watched as if he were a criminal," said Colonel Parker, who accompanied Senaor Proctor to Cuba. "The Spaniards hate us, and do not hesitate to say so very sad over it, either. Today Havana all druggists is calm, but it is the calm of a suppressed celling that always precedes a storm. Are we going to have war? Well, if we lon't, I shall be surprised."

WAS LAINE A DYNAMITER?

Havana, March II .-- Henry Laine, the lewspaper correspondent, was not compelled to leave the country because of ewspaper work, but because of written harges, accompanied by alleged full proof furnished to the autonomic government by Mr. Bruzon, governor of Havana province, that he and others were involved in the conspiracy responsible for locating 25 dynamite hombs at various points in Havana. Mr. Bruzon demanded the expulsion of all newspaper correspondents on the ground that sensational stories sent to the United States Condy enthantis, some, grazasteed, 10 27 | Mill street

The Marquis of Montoro and Mr. Govin CHARGES OF BRIBERY were Dable to occase cousen mavans opposed a wholesale deportation, saying that the matter was very serious and that it was the duty of the autonomic government not only to preserve peace in Havana, but to promote good feeling with the United States Furthermore, they contended that not all the correspondents should be under the ban, but that selections should be made of the guilty. They concluded their reply to Bruzon by saying that it would be unwise to expel any correspondents while the court of inquiry was in session, lest it should seem that the Spaniards dreaded the publication of the truth about the Maine explosion.

BILL TO REMIT DUTY.

Washington, March 11.-Senator Chandler has introduced a bill in the senate providing for remission of duties on way materials that may be imported It was presented at the request of the secretary of the pays, who, in a lett : to Senator Hale, says. "Under existing law a varying but considerable ad valorem duty on articles failing within the category of navy supplies is iniposed. The effect of the resolution, it idopted, will be to remit duties on guns, ammunition and other supplies which it may be found necessary to purchase The temporary remission of duty on these supplies is deemed important inasmuch as without some special enactment of this nature such portion of the appropriation made by congress for the purpose as may be expended abroad would be very materially reduced by the deduction therefrom of duty amounting in some cases to nearly one-half of the purchase price."

"REGULAR PRISON SHIP."

Williamsport, Pa., March H .- The parents of Johnson L. Hayes, who reside in Mountoursville, have received a letter from him dated on board the Montgomery at Key West, March 3. Young Hayes is one of the crew. In his letter he says: "We have become a tegular prison ship now. We have two divers who were down in the Maine and are waiting to give their testimony at the court of inquiry. They will not be allowed to communicate with the shore till the court is over. One reporter, who knew too much, has also been brought aboard. The Maine was blown up by a mine; that it what both divers say,"

The committee on mercantile affairs reported a bill interporating Thomas D. [5] Beaven of Springfield, the Roman Cathohe bishop, a corporation sole, to hold T and manage certain property for teliglous and charitable purposes. CHUINDEL AND SHARKEY.

San Francisco, March 11.-Both Choynski and Sharkey have ceased training for their fight tonight. Both are in perfect condition and equally confident. It is generally conceded that the sailor will give a better account of himself than when he first met Choynski Sharkey's staying powers, which have been thoroughly tested by Fitzsimmons, Corbett, Goddard and others, constitutes him favorite in the betting at odds of 10 to 8, much to the surprise of his oponent, but a large sum of money has already been staked at the odds, and there was plenty more on hand. Sharkey probably will enter the ring at 176 pounds, while Choynski probably will scale from 160 to 165 pounds. The advance sale of tickets has been un-

Texas, writes in a letter to Dr. Pierce: "It affords me pleasure to testify to the remarkable curative power of Dr. Pierce's Golden Medical Discovery. I was severely afflicted with trouble in my lungs—spetting up blood, and was so weak I was unable to continue my work. I tried several remedies which gave me no relief, and I had commenced to think there was no hope for me. Dr. Pierce's Golden Medical Discovery was recommended to me so I tried it and began to improve at once, and was soon able to resume work. I consider it a wonderful medicine."

Every man who wants to save doctor's bills should send 21 one cent stamps, the cost of mailing only, to Dr R V Pierce, Buffalo, N Y, for a copy of his too page illustrated book," Common Sense Medical Adviser," in paper covers; or 31 stamps for cloth-bound copy.

ENGLAND IS PREPARED.

Not Be Caught Asleep. London, March 11-In the house of doesn't stop to argue about commons yesterday the first lord of the admitalty, George J. Goschen, in presenting the naval estimates hoped that that every moment's delay the admiralty would not be too hardly cape, but when a man is sick prossed to communicate its plans, but pressed to communicate its pians, not he too often postpones his opportunity of getting well and says: "O, perhaps I'll be better next week" or be better next week" or tection of every trade and every food to mext month." "next month."

The weeks and months go supply route, and he trusted that "if on and every day his chance times darkened the adminalty would be of esciping from the dungeon have the confidence of the house, for it would be found doing its duty..."

He concluded: "If peace shall again eign in our center of industry and mark time institutions, and if the nation that calls herself mistress of the sea reasserts herself by an increase of merchant scamen, then the nation may look for ward in confidence that if there be peace it will be peace with honor, but if war, which God forbid, it must be war

crowned with victory." Mr. Allen (Radical) advocated greater efforts, and moved an amendment that great combination several of the congreater provisions be made for manning the fleet. Rear Admiral Beresford (Conservative), in seconding the amendment, urged a larger reserve of men, and suggested that Great Britain should buy all the vessels now building in England for other countries.

The house rejected Mr. Allen's amend Many members urged an inment. crease in the naval reserve. Sir Charles Dilke (Radical) said: "Everyone must feel that the circumstances are such that we might find ourselves at war with a be disposed to seize the opportunity to of the ocean and not as rivers. make demands we would be indisposed to comply with. Nevertheless, the present estimates are the estimates of procrastination and delay. The position of our navy, compared with those of other nations, is worse than it was two years

ago. Mr. Goschen, in a general defense of the estimates, thought it would be better in a time of crisis to complete and organize available vessels that would not be ready for three years. The other powers, he urged, would meet with the will guarantee a cure. Booklet and same difficulties as themselves. Great Britain was still able to send more ships to sea at short notice than other nations.
